
Mouse Anti Procollagen III N-Terminal Propeptide (PIIINP) Antibody

Cat# AB3073-100

Product description

Product: Mouse Anti Procollagen III N-Terminal Propeptide (PIIINP) Antibody

Host: Mouse

Species: Human

Isotype: IgG1 Kappa

Format: Protein A + Protein G Affinity Purified

Immunogen: Recombinant TP53 (Gly108~Lys370) expressed in E.coli

Product Type: Monoclonal Antibody

Formulation

0.01M PBS, pH7.4, containing 0.05% Proclin-300, 50% glycerol.

Application

The product is affinity purified and specifically recognizes the Human Procollagen III N-Terminal Propeptide (PIIINP). The antibody can be used for variety of application. It is recommended that the end user optimizes the product for their particular application with appropriate controls.

Specificity

The antibody is a mouse monoclonal antibody raised against Procollagen III N-Terminal Propeptide (PIIINP). It has been selected for its ability to recognize Procollagen III N-Terminal Propeptide (PIIINP) in immunohistochemical staining and western blotting.

Tested Application

Western blotting: 0.5-2µg/mL;

Immunohistochemistry: 5-20µg/mL;

Immunocytochemistry: 5-20µg/mL;

Optimal working dilutions must be determined by end user.

Storage

Store at: -20°C in aliquots and avoid repeated freeze/thaw cycles.

Pack size available

100 µg, 500 µg

Regulatory:

For research use only (RUO)

This Product is for Research Use only (RUO) and not to be used in Diagnostic Procedure.

No. A-112, KSSIDC Block-3, Electronic city phase-1, Bangalore 560100, Karnataka, INDIA.
