
Rabbit Anti Poly ADP Ribose Polymerase (PARP) Antibody

Cat# AB3081-100

Product description

Product: Rabbit Anti Poly ADP Ribose Polymerase (PARP) Antibody

Host: Rabbit

Species: Human

Isotype: IgG

Format: Affinity Purified

Immunogen: Recombinant PARP (Asp788~Trp1014) with two N-terminal Tags, His-tag and T7-tag expressed in E.coli.

Product Type: Polyclonal Antibody

Formulation

0.01M PBS, pH7.4, containing 0.05% Proclin-300, 50% glycerol.

Application

The product is affinity purified and specifically recognizes the Human Poly ADP Ribose Polymerase (PARP). The antibody can be used for variety of application. It is recommended that the end user optimizes the product for their particular application with appropriate controls.

Specificity

The antibody is a rabbit polyclonal antibody raised against Poly ADP Ribose Polymerase (PARP). It has been selected for its ability to recognize Poly ADP Ribose Polymerase (PARP) in immunohistochemical staining and western blotting.

Tested Application

Western blotting: 1:50-400

Immunocytochemistry in formalin fixed cells: 1:50-500

Immunohistochemistry in formalin fixed frozen section: 1:50-500

Immunohistochemistry in paraffin section: 1:10-100

Enzyme-linked Immunosorbent Assay: 1:100-200

Optimal working dilutions must be determined by end user.

Storage

Store at: -20°C in aliquots and avoid repeated freeze/thaw cycles.

Pack size available

100 µg, 500 µg

Regulatory:

For research use only (RUO)

This Product is for Research Use only (RUO) and not to be used in Diagnostic Procedure.
