
**Rabbit Anti Cross Linked C-Telopeptide Of
Type II Collagen (CTXII) Antibody**
Cat# AB3093-100

Product description

Product: Rabbit Anti Cross Linked C-Telopeptide Of Type II Collagen (CTXII) Antibody
Host: Rabbit
Species: Human
Format: Protein A Affinity Purified
Immunogen: Synthetic Peptide, CTXII conjugated to OVA. Target peptide sequence: EKGPDPLQYMRA.
Product Type: Polyclonal Antibody

Formulation

0.01M PBS, pH7.4, containing 0.05% Proclin-300, 50% glycerol.

Application

The product is affinity purified and specifically recognizes the Human Cross Linked C-Telopeptide Of Type II Collagen (CTXII). The antibody can be used for variety of application. It is recommended that the end user optimizes the product for their particular application with appropriate controls.

Specificity

The antibody is a rabbit polyclonal antibody raised against Cross Linked C-Telopeptide Of Type II Collagen (CTXII). It has been selected for its ability to recognize CTXII in immunohistochemical staining and western blotting.

Tested Application

Western blotting: 0.5-2µg/mL;
Immunohistochemistry: 5-20µg/mL;
Immunocytochemistry: 5-20µg/mL;
Optimal working dilutions must be determined by end user.

Storage

Store at: -20°C in aliquots and avoid repeated freeze/thaw cycles.

Pack size available

100 µg, 500 µg

Regulatory:

For research use only (RUO)

This Product is for Research Use only (RUO) and not to be used in Diagnostic Procedure.
