

Rabbit Anti Galactosidase Alpha (GLa)Antibody Cat# AB3098-100

Product description

Product: Rabbit Anti Galactosidase Alpha (GLa)Antibody Host: Rabbit Species: Human Format: Protein A Affinity Purified Immunogen: Recombinant GLa (Gly147~Ser371) expressed in E.coli Product Type: Polyclonal Antibody

Formulation

0.01M PBS, pH7.4, containing 0.05% Proclin-300, 50% glycerol.

Application

The product is affinity purified and specifically recognizes the Human Galactosidase Alpha (GLa). The antibody can be used for variety of application. It is recommended that the end user optimizes the product for their particular application with appropriate controls.

Specificity

The antibody is a rabbit polyclonal antibody raised against Galactosidase Alpha (GLa). It has been selected for its ability to recognize GLa in immunohistochemical staining and western blotting.

Tested Application

Western blotting: 0.5-2µg/mL; Immunohistochemistry: 5-20µg/mL; Immunocytochemistry: 5-20µg/mL; Optimal working dilutions must be determined by end user.

Storage

Store at: -20°C in aliquots and avoid repeated freeze/thaw cycles.

Pack size available

100 µg, 500 µg

Regulatory:

For research use only (RUO)

This Product is for Research Use only (RUO) and not to be used in Diagnostic Procedure.
