
Rabbit Anti-Cholesterol (CH) Antibody

Cat# AB3121-100

Product description

Product: Rabbit Anti-Cholesterol (CH) Antibody
Host: Rabbit
Species: Pan species (General)
Format: Protein A Affinity purified.
Immunogen: Small Molecule, Cholesterol conjugated to BSA.
Product Type: Polyclonal Antibody

Formulation

0.01M PBS, pH7.4, containing 0.05% Proclin-300, 50% glycerol.

Application

The product is affinity purified and specifically recognizes the Cholesterol (CH). The antibody can be used for variety of application. It is recommended that the end user optimizes the product for their particular application with appropriate controls.

Specificity

The antibody is rabbit polyclonal antibody raised against Cholesterol (CH). It has been selected for its ability to recognize CH in immunohistochemical staining and western blotting.

Tested Application

Immunohistochemistry: 5-20µg/mL;
Immunocytochemistry: 5-20µg/mL;
Optimal working dilutions must be determined by end user.

Storage

Store at: -20°C in aliquots and avoid repeated freeze/thaw cycles.

Pack size available

100 µg, 500 µg

Regulatory:

For research use only (RUO)

This Product is for Research Use only (RUO) and not to be used in Diagnostic Procedure.
